

Lock-Chain Combination CityChain 1010

Art. no. 18898

Page 1 of 1

Technology

- 9 mm hexagonal chain with fabric sleeve to prevent damage to the motorbike's paintwork
- The chain, the lock body as well as supporting elements of the locking mechanism are made of special hardened steel
- ABUS Plus cylinder for high protection against manipulations, e.g. picking
- Two keys are supplied with the lock, one LED torch key
- Automatic keyhole cover against dirt and corrosion
- ABUS Code Card for additional or replacement key

Operation and use

- Good protection at medium theft risk
- Recommended for securing entry level motorbikes and scooters
- The longer the chain, the easier the motorbike can be locked to a fixed object

Tips

- This lock can be ordered keyed alike to other locks. This means several locks would match one key, respectively key code
- Chain lock combinations are a very good solution for locking a motorbike to a fixed object
- Very handy use because only one end of the chain must be locked
- To limit the possibilities of brutal attacks it is recommendable to avoid that the chain lays on or hangs close to the ground
- For the protected transport we recommend the bag ST1010 (matches only 110 and 140 cm length)

Top security for city and countryside
